

E-COPS

“Serving those who Protect”

Objective

To deliver next generation police and law enforcement reporting tools by setting up intelligence platforms that agencies use to take incoming incident reports, lessen live employee resources and allow these enforcement agencies to reallocate resources to much needed community areas

Users of the system

- a. Citizen
- b. Police officers
- c. Detectives
- d. Administrator
- e. Hotel and cyber café employee

Key Functionality

- Create/edit a virtual police station (PS) which represents a real police station as a first time setup.
- Appointment and transfer of police officers to a particular police station which is present in a specific zone or to a specific district.
- Modification of area of control of the police station.
- Maintain several departments like Law and Order, Women Protection , Cybercrime, Traffic and control, CBI, etc.
- Tracking the life cycle of various processes like FIR, Charge Sheet, Property Seizure, court disposal etc all these activities are performed by a PS.

Key Functionality Contd...

- Sharing of case details with PS in other states which is database and platform independent.
- Provision to provide/deny the arrest warrant.
- Apply for various licenses like Arms, loud speaker, Hotel/lodge, browsing centre, mass meetings etc.
- Secured registration of all users
- Integration of E-COPS with court and prison management

Technology Stack

The architecture followed was Model View Controller(MVC) pattern ensuring Complete transparency between components such as:

Front End:	HTML , CSS , DHTML
Business Logic:	Servlets
Backend:	Data Access Object (DAO), Data Transfer Object (DTO)
Application Server:	IBM Websphere
Database	DB2
IDE	Eclipse

▶ Traffic Rules

While on the roads, every one sharing the roads should respect each others presence and their right of advancement on roads. The section points out some basic tips in order to make driving a smooth experience.

- For Cyclist:

In the year 2003, 772 Cyclists were involved in accidents on Delhi Roads. 171 of them succumbed to their injuries while 646 were seriously injured. In order to be safe while cycling on roads of Delhi, keep the following tips in mind:

1. Wear a cycle helmet and appropriate clothes.
2. Use the cycle lane, where ever provided. Ride on the left of the road, with other traffic.
3. Obey stop signs and traffic lights, like the rest of the traffic.
4. Give signals with one hand while riding. Never ride with just one hand on the handle bar except when giving a signal.
5. Keep both feet on the pedals.
6. Look back over your shoulders and take a right turn comfortably, give way to the traffic coming from behind.
7. Never follow any vehicle closely. Maintain safe distance.
